Type aircraft?:

WHAT YOU SHOULD KNOW ABOUT THIS SURVEY FORM...

- ⇒ This locally developed form will be used as an application to record information about you as a member. It will be used as a tool to input information into our membership database.
- ⇒ The information on this form is for “in-house” use only, and none of the information will be released to anyone outside of the chapter.
- ⇒ You are not committed to anything by filling this form out.
- ⇒ Since the success of any chapter is contingent on meeting the needs of its membership, it is useful to know about **you** with regard to your **experiences, skills, and interests**. The leadership can use this valuable information to understand the collective “personality” of the membership and chart a course for the future. Furthermore, it is also helpful to have this understanding of members’ backgrounds because as an aviation community, we can share our knowledge, pool our resources, and collectively assist the needs of our membership.
- ⇒ Try to fill out this form in as much detail as possible. Format is not important (mark, circle, check, estimate..draw arrows...whatever). If you do not feel comfortable answering an item—no problem--leave it blank. Use the back of this page to expand on any responses. Don’t sweat anything on this form...we’re folks just like you.
- ⇒ You must ultimately be a member of EAA to join this chapter. If you are not a national member, you are welcome to attend our meetings, but will not have the privilege of voting on chapter matters.
- ⇒ If you have any comments, questions, or ideas for the improvement of this form, please talk to Doug White, or call him at (240) 346-8709.
